Disclaimer

Unless stated otherwise, all the figures given in this presentation refer to continuing operations.

The details given in this document are based on the information available at the time it was prepared. This presents the risk that actual figures may differ from forward-looking statements. Such discrepancies may be caused by changes in political, economic, or business conditions, decreases in the technological lead of DEUTZ’s products, changes in competition, the effects of movements in interest rates or exchange rates, the pricing of parts supplied, and other risks and uncertainties not identified at the time this document was prepared.

The forward-looking statements made in this document will not be updated.
Agenda

Strategy and operational highlights

Dr. Frank Hiller | Chairman of the Board of Management
Key figures for Q1–Q3 2019 at a glance

Growth in revenue and earnings

- Revenue rises in all regions and major application segments:
  Consolidated revenue advances by 6.4%; revenue from the high-margin service business climbs by 7.3%.
  Particularly strong growth in the Americas (+14.8%) and Asia-Pacific (+16.3%).

- Since the end of Q2 2019, new orders have reflected a weakening of demand as a result of the economic climate;
  new orders down by 15.1% on the strong prior-year period.

- Sharp increase in operating profit even before exceptional items:
  Operating profit before exceptional items jumps 50.8% to €69.2 million.
  EBIT margin before exceptional items improves from 3.5% to 5.0%.

- Revenue and earnings guidance¹) for 2019 confirmed.

Further milestones reached in the implementation of the growth strategy

- At the end of September 2019, the foundation stone was laid for the new high-performance engine assembly plant in the Chinese city of Changsha.

- Acquisition of battery specialist Futavis adds expertise in high-voltage battery management systems to the E-DEUTZ strategy – another big step toward a future of zero-carbon off-highway vehicles.

¹) See the ad-hoc disclosure from DEUTZ AG dated September 20, 2019.
DEUTZ’s growth strategy in China

Joint venture agreement\(^1\) with China’s largest construction equipment manufacturer, SANY\(^2\)
- At the end of September 2019, the foundation stone was laid for the new high-performance engine assembly plant in the Chinese city of Changsha.
- Province of Hunan is contributing several tens of millions of US dollars in funding.
- From Q4 2020, DEUTZ will take over SANY’s existing engine production activities and begin to supply DEUTZ engines.
- Steps to localize procurement have already been initiated.
- Production of around 75,000 engines in 2022/Additional growth potential expected.

Strategic alliance with BEINEI for local contract manufacturing
- DEUTZ management team will oversee the production of around 20,000 new engines in 2022 for China and, looking further ahead, other Asian countries.
- New factory in Tianjin to be completed in Q1 2020.
- Ramp-up planned for 2020 with up to 5,000 engines.

Partnership with China’s biggest construction equipment leasing company, FAR EAST HORIZON, to expand the local service business
- Expansion of digital service offering/Joint web store planned.
- First service outlets are under development.

Revenue target in China in 2022: ~€500 million\(^2\)

Introduction of stricter emissions regulations opens up additional opportunities for growth
- The Chinese government is promoting the development of cleaner diesel engines and is pressing ahead with alternative drive technologies such as electrification, sustainable fuels, and hydrogen drives.
- China IV Non Road Emission Legislation scheduled to be introduced late 2020/mid-2021 for all off-highway machines/Significant reduction in the threshold values for nitrogen oxide and particulates compared to China III.
- In the heavy-duty on-highway sector, China VI will be introduced for urban commercial vehicles from mid-2020 and nationwide in 2021.
- DEUTZ has the required expertise to position itself as an ideal technology partner.
- DEUTZ will significantly expand its market share in the world’s biggest individual market for engines by establishing local production operations and working with strategic partners.

\(^1\) DEUTZ holds 51% majority stake in the joint venture.
\(^2\) The joint venture is consolidated using the equity method.
DEUTZ acquires battery specialist Futavis

- Acquisition of the battery specialist **Futavis**, which has extensive technical expertise in electronics, software, battery technology, and battery testing and in matters of functional safety.

- The company's expertise in **high-voltage battery management systems** will add to the expertise that DEUTZ and Torqeedo already have in the field of electric drives.

- DEUTZ now has expertise in all relevant technologies, including electric drives, power electronics, low- and high-voltage batteries, and systems integration.

Planned share of revenue generated by electric drives in 2022: 5–10%
Since the end of Q2 2019, new orders have reflected a weakening of demand as a result of the economic climate; strong prior-year period had been positively influenced by a change in customers’ ordering patterns.

Revenue increasing at a faster rate than unit sales because of the positive effects of a shift in the product mix.

Sales of Torqeedo’s electric drives jump by 44.7% to 12,990.
Revenue by region\(^1\)

Q1–Q3 2019 (Q1–Q3 2018)

</tbody>
</table>

Strong growth in the Americas and Asia-Pacific

1) In Q1 2019, DEUTZ changed the regional assignment of one of its big-ticket customers. Business with this customer is no longer allocated exclusively to the EMEA region. Instead, it can now also be allocated to the Americas and Asia-Pacific regions, depending on the location of the local subsidiary's registered office. The figures for the prior-year period have been restated accordingly.
Revenue by application segment

Q1-Q3 2019 (Q1-Q3 2018)

- **Miscellaneous** 6%
  - €85.6 million
  - +13.5%

- **Stationary Equipment** 9%
  - €122.4 million
  - -2.2%

- **Agricultural Machinery** 15%
  - €206.1 million
  - +9.5%

  - +11.3%

- **Service** 19%
  - €265.8 million
  - +7.3%

Further successful expansion of high-margin service business

---

1) From 2019 onwards, the revenue from automotive business is included in the Miscellaneous application segment. Up to and including 2018, it was shown separately. The figures for the prior-year period have been restated accordingly.
Agenda

Key financials in detail

Dr. Andreas Strecker | Chief Financial Officer
EBIT

▪ Significant year-on-year increase in EBIT and EBIT margin, even before exceptional items.

▪ Excluding non-recurring effects (deconsolidation of Argentinian joint venture, provision at Torqeedo, reversal of impairment loss on engine series), the EBIT margin before exceptional items stood at 5.3%.

▪ Significant double-digit increase in EBIT in both the DEUTZ Compact Engines and DEUTZ Customised Solutions segments.

▪ The Other segment’s negative impact on earnings is higher mainly because of the deconsolidation of the joint venture in Argentina (Q1 2019: €2.9 million) and the recognition of a provision at Torqeedo (Q2 2019: €2.5 million).
Operating profit and net income

**Q1–Q3 2018**
€ million

- EBITDA up by 31.6%, or by 22.8% before exceptional items; EBITDA margin improves by 190 bps to 10.0%, or by 120 bps to 9.3% before exceptional items.
- Deterioration in net financial income due to the write-down on a loan granted to a supplier at the end of 2018.
- Significant increase in payments for income taxes (+47.7%), mainly due to a positive exceptional item in Q2 2019 (proceeds from the sale of land).
- Net income rises by 53.7%, or by 31.5% before exceptional items.

**Q1–Q3 2019**
€ million

- EBITDA up by 31.6%, or by 22.8% before exceptional items; EBITDA margin improves by 190 bps to 10.0%, or by 120 bps to 9.3% before exceptional items.
- Deterioration in net financial income due to the write-down on a loan granted to a supplier at the end of 2018.
- Significant increase in payments for income taxes (+47.7%), mainly due to a positive exceptional item in Q2 2019 (proceeds from the sale of land).
- Net income rises by 53.7%, or by 31.5% before exceptional items.
Revenue close to the prior-year level despite reassignment of the 2011 engine series to DEUTZ Customised Solutions.

Revenue increasing at a faster rate than unit sales mainly due to a favorable shift in the product mix toward higher-value engines.

EBIT up significantly on the low figure reported for the prior-year period, which had been reduced by €14.1 million because of a drag on earnings resulting from a joint venture that has now been sold.

EBIT margin improving, partly because of the engine series reassignment and positive effects resulting from a shift in the product mix.
### DEUTZ Customised Solutions (DCS)

<table>
<thead>
<tr>
<th>€ million</th>
<th>Q1–Q3 2019</th>
<th>Q1–Q3 2018</th>
<th>YoY change (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>New orders</td>
<td>267.2</td>
<td>215.3</td>
<td>+24.1</td>

<td>+66.7</td>
</tr>
<tr>
<td>EBIT margin (%)</td>
<td>15.3</td>
<td>12.7</td>
<td>+260 bps</td>
</tr>
</tbody>
</table>

- Business performance influenced by inclusion in segment of the 2011 engine series; new orders rise sharply, unit sales triple.
- Strong revenue growth, partly due to the expansion of the service business with Xchange products.
- Sharp increase in operating profit (EBIT) for the segment, mainly because of the greater proportion of earnings generated by the high-margin service business.
- EBIT margin close to the level of the prior-year period because the profit margin of the 2011 engine series is lower than that of the other series.
R&D spending and capital expenditure

**R&D expenditure**

<table>
<thead>
<tr>
<th></th>
<th>Q1–Q3 2018</th>
<th>Q1–Q3 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>€ million</td>

**Capital expenditure**

<table>
<thead>
<tr>
<th></th>
<th>Q1–Q3 2018</th>
<th>Q1–Q3 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>€ million</td>
<td>40.3</td>
<td>60.6</td>
</tr>
</tbody>
</table>

- R&D expenditure and capital expenditure increase as expected due to new engine projects and the implementation of the E-DEUTZ strategy to expand the engine portfolio.

1) Ratio of net R&D expenditure (after reimbursements) to consolidated revenue.
2) After deducting grants; capital expenditure on property, plant and equipment (including right-of-use assets in connection with leases) and intangible assets, excluding capitalization of R&D.
Increase in working capital mainly due to the rise in inventories.

Decline in cash flow from operating activities predominantly due to the repayment of current liabilities to factoring companies at the beginning of the reporting period and to the increase in payments for income taxes attributable to the proceeds from the sale of the land at the Cologne-Deutz site in 2017.
Free cash flow and net financial position

Free cash flow\(^1\)

<td>78.8</td>
<td></td>
</tr>
<tr>
<td>Sep. 30, 2019</td>
<td>-7.1</td>
<td></td>
</tr>
</tbody>
</table>

- Deterioration in free cash flow attributable to the rise in net cash used for investing activities, which was driven partly by the payment of the first installment for the purchase of shares in the joint venture with SANY.
- Deterioration in the net financial position partly due to the initial application of IFRS 16 ‘Leases’ on January 1, 2019, as a result of which lease liabilities totaling €40.3 million were included in current and non-current financial debt as at September 30, 2019.

\(^1\) Free cash flow: cash flow from operating and investing activities less net interest expense.
Equity ratio and funding

- Stable financial position – equity ratio of 50.4%.
- Medium- to long-term funding available:
  - Credit line of €160 million available until June 2024
Agenda

Outlook

Dr. Frank Hiller | Chairman of the Board of Management
### Group forecast for 2019

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>Forecast for 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenue</td>
<td>1,778.8</td>
<td>&gt; 1,800</td>
</tr>
<tr>
<td>EBIT margin (before exceptional items)</td>
<td>4.6%</td>
<td>4–5%(^1)</td>
</tr>
<tr>
<td>R&amp;D expenditure(^2)</td>
<td>85.0</td>
<td>85–90</td>
</tr>
<tr>
<td>Capex (excl. R&amp;D)(^3)</td>
<td>59.1</td>
<td>85–95(^2)</td>
</tr>
</tbody>
</table>

- The positive exceptional item from payment of the final installment of the purchase price for the sale of the Cologne-Deutz site is, based on current information, now not expected to be made until 2020 due to a delay in the formal approval of the development plan. Contrary to previous expectations, the positive exceptional item is likely to be around €60 million (previous expectation: around €50 million).

- If the outstanding payments for the purchase of the shares in the joint venture with SANY are made before the end of this year, it can be assumed that free cash flow for 2019 would, contrary to the original full-year guidance (mid double-digit million euro amount), fall significantly into negative territory.

\(^1\) Adjusted on September 20, 2019 due to the drag on earnings that is expected as a result of the insolvency of a major supplier.  
\(^2\) Net of reimbursements.  
\(^3\) Excluding capital investment in connection with new Chinese growth strategy (mid double-digit million € amount).
### Forecast for key end customer markets in 2019
