# Overview

---

- **Positive business performance overall and significant improvement in operating profit (EBIT before exceptional items) compared with Q2 2020**
- **Further quarter-on-quarter improvement in business performance expected in the fourth quarter of 2020 – signs of an upward trend in the market, but it will take a long time to return to pre-crisis levels**
- **Focused implementation of the growth initiatives despite the coronavirus crisis**
  - Expansion of the profitable service business: acquisition of DEUTZ Austria GmbH, Motorcenter Austria GmbH, and Pro Motor Servis CZ s.r.o., which sell and service diesel engines, at the beginning of Q4 2020 provides DEUTZ with direct access to the markets in Austria, the Czech Republic, Hungary, Slovakia, and Slovenia
  - Continued successful implementation of China strategy
- **Successful launch of the global Transform for Growth efficiency program**

## Transform for Growth efficiency program

- As well as a decrease in operating costs, the bulk of the savings are to be achieved by reducing staff costs
- Reduction of up to 1,000 positions worldwide by the end of 2022:
  - A total of around 490 positions already cut in the first three quarters of 2020, partly through natural attrition and a reduction in the number of temporary workers
  - Voluntary program set up for the German sites to reduce the number of positions by 350 while minimizing the social impact
- Restructuring costs of nearly €38 million, predominantly related to planned personnel measures, recognized as an exceptional item in Q3 2020

Our target:

approx. **€100 million**  
in annual cost savings from 2022

### Main areas of action:

- Optimization of the global production network
- Automation and digitalization of operating and administrative processes
- Groupwide streamlining of the organizational structure coupled with an optimized use of global structures

Transform for Growth provides DEUTZ with basis for securing its long-term competitiveness

## China strategy

- Successful integration of the existing SANY engine factory in Kunshan into DEUTZ's network of production sites
- SANY joint venture profitable – production volume expected to increase from around 7,000 engines in 2019 to approx. 20,000 engines in 2020
- Factory at which diesel engine maker BEINEI is contracted to manufacture DEUTZ engines for the local market completed – production of the 2.9 and 6.1 model series to commence there at the start of 2021 as planned
- Construction of the new engine factory in Changsha for the joint venture with SANY proceeding according to plan – planned production volume of around 80,000 engines in 2022

Our target for China:

~ **€800 million**

revenue in 2022<sup>1</sup>

**Successful implementation of growth strategy in the world's biggest engine market despite coronavirus**

6 <sup>1</sup> The revenue target of approximately €800 million includes the revenue generated by the joint venture with SANY. Under the equity method, this revenue is not recognized in the consolidated financial statements.

# Agenda

## Key financials in detail

Dr. Andreas Strecker | CFO

# Significant improvement in operating profit in the third quarter

**Operating profit** (€ million)

**EBIT margin before exceptional items**

- **Operating loss** (EBIT before exceptional items) in Q1–Q3 2020 attributable to:
  - Sharp fall in revenue, with related diseconomies of scale, due to the coronavirus crisis
  - Payments made under continuation agreements with suppliers that are going through insolvency proceedings (around €10 million)
  - Demand-related impairment losses recognized on capitalized development projects (around €5 million)
- Mitigating positive impact of general cost-cutting measures, the use of short-time working, and the Board of Management waiving its one-year variable remuneration for 2020 and senior managers waiving a substantial part of their variable remuneration for 2020
- **Restructuring costs** of **€37.8 million** for measures initiated as part of Transform for Growth recognized as an exceptional item in Q3 2020
- Deterioration to a **net loss** of €104.5 million (before exceptional items: net loss of €68.3 million) as a result of the decline in EBIT

# Business performance in the segments 1/2

## DEUTZ Compact Engines (DCE)

## DEUTZ Customized Solutions (DCS)

- Significant overall decline in the sales figures of the DCE and DCS segments due to coronavirus
- Additional drag on DCE's operating profit because of payments made under continuation agreements with suppliers that are going through insolvency proceedings and impairment losses recognized on a development project due to the expected decrease in demand
- Additional drag on DCS's operating profit due to demand-related impairment losses recognized on two development projects

## Business performance in the segments 2/2

### Other

€ million

	Q1–Q3 2020	Q1–Q3 2019	YoY change (%)
New orders	34.0	31.3	+8.6
Unit sales (units)	24,057	12,990	+85.2
Revenue	35.9	26.5	+35.5
EBIT before exceptional items	-8.9	-14.2	+37.3
EBIT margin before exceptional items (%)	-24.8	-53.6	-

- Positive trend for the Other segment's sales figures; unit sales nearly double, in part due to the ramp-up of smaller trolling motors at Torqeedo
- Lower increase in revenue, relative to the increase in unit sales, because of negative product mix effects in connection with the aforementioned ramp-up at Torqeedo
- Substantial year-on-year improvement in the operating profit for the segment, partly due to the deconsolidation of DAMSA in H1 2019

# R&D: spending and capital expenditure

## R&D spending (after deducting grants)

€ million

● R&D ratio<sup>1</sup>

## Capital expenditure<sup>2</sup>

€ million

- Disproportionately strong rise in the R&D ratio caused by sharp fall in revenue
- Reduction in capital expenditure as a result of cost-cutting measures being implemented
- €17.4 million of the capital expenditure during the period under review was attributable to additions resulting from leases (Q1-Q3: €8.4 million)

# Cash flow from operating activities & working capital

## Cash flow from operating activities

€ million

## Working capital

€ million

- Decrease in cash flow from operating activities caused by the sharp decline in operating profit as a result of coronavirus and by the repayment of current liabilities to factoring companies
- Significant decline in working capital compared with the prior-year period, mainly due to the early adjustment of production and procurement activities and a further intensification of working capital management in response to the fall in demand resulting from coronavirus

# Free cash flow and net financial position

## Free cash flow<sup>1</sup>

€ million

Q1-Q3 2019    Q1-Q3 2020

## Net financial position

€ million

Sep. 30, 2019    Sep. 30, 2020

- Significant decline in free cash flow as a result of lower level of cash flow from operating activities
- Decline in the net financial position due to the lower level of cash and cash equivalents resulting from the changes in cash flow and to the significant increase in current and non-current interest-bearing financial debt; excluding the lease liabilities in accordance with IFRS 16, the net financial position deteriorated to minus €64.7 million compared with €33.2 million a year earlier

# Equity ratio and funding

## Equity ratio

€ million

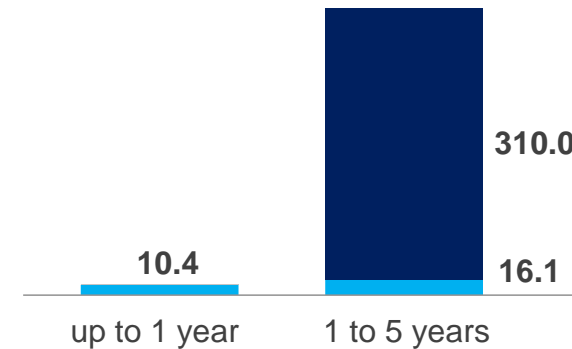

■ Total assets ■ Equity ● Equity ratio

## Funding

€ million

Long-term bank loans

■ Repayment profile ■ Term of credit lines

Lease liabilities

- Capital structure remains comfortable
- In Q2 2020, syndicated credit line increased by a further tranche of €150 million to a total of €310 million; €160 million maturing in June 2024 and €150 million maturing in Nov. 2021; amount drawn down as of Sep. 30, 2020: €65 million
- Sufficient medium and long-term funding options despite delay in payment of the final installment of the purchase price for the sale of land; the associated positive exceptional item is anticipated in 2021<sup>1</sup>
