Select the destination plant of DEUTZ AG. You will find the exact destination addresses on the next page.

If you want to send more than just one parcel, you can add more parcels under “Add”. The parcels will then be delivered together. Please note that the **maximum weight is limited to 70 kg per shipment!**

Under “Label Delivery Method” you can select between “View and Print” or “E-Mail Label”.

With “E-Mail Label”, the e-mail address must be entered in the relevant field so that the label can be sent to you by e-mail.

With “View and Print”, the label is ready for printing on the next page after the shipment has been completed.

Pickup successful. Your pickup confirmation number is 29F3B908MG6

As soon as you have printed out the label, all you need to do is book the collection. You can select the day and time of collection. It is necessary that you enter a contact person and a phone number.

*\*If you have already arranged a regular collection with UPS for your own shipments, you do not need to book an additional collection via the platform from UPS / DEUTZ AG.*
