Genuine DEUTZ

# Cooling system conditioner

The engine company.

# Genuine DEUTZ Cooling system conditioner

All liquid-cooled engines require an effective product to ensure long-term conservation of the engine's cooling system. The use of unstable or unapproved products can lead to corrosion or deposits on hot spots. In addition, it can lead to pitting on the aluminum components and flocculation, which may cause severe engine damage. Genuine DEUTZ Coolant is specifically engineered to ensure the desired performance, reliability, and durability that our customers demand!

## Usage instructions

Proportion of Cooling system conditioner	Antifreeze protection down to
min. 35 %	- 22 °C
40 %	- 28 °C
max. 50 %	- 41 °C

Further information regarding maintenance and correct dilution level with fresh water can be found in technical circular TR 0199-99-1115..

## The benefits of buying Genuine DEUTZ Coolant

- ✓ Perfectly calibrated to all materials inside the DEUTZ engine
- ✓ Reliably prevents corrosion, cavitation and freezing
- ✓ Characterized by low maintenance requirements
- ✓ Replacement only necessary every two years
- ✓ Free of nitrites and amines, silicates and phosphates

Part no.	Part name.	Package size
0101 7990	DEUTZ Cooling System conditioner DQC-CB	5 l canister
